

Your safety, your profit, our commitment

Weighloader

Do you ask yourself these questions?

- How much did I put in there?
- How many tonnes did I put in the lorry?
- What does that weigh?
- How many tonnes of feed am I using?
- How many tonnes of manure is in that barn?
- How many tonnes am I moving per day/hour/load?
- How do I move 10 tonne of this stuff?

Then the Prolec Weighloader system is your answer. An easy to use system that is robust and reliable, Weighloader enables you to monitor your material handling. Weighloader is suitable for weighing multiple products, or just one. With this system, keeping on top of your material handling couldn't be easier.
